

2016

Tiago M. Fernández-Caramés, Paula Fraga-Lamas, Manuel Suárez-Albela, Luis Castedo, Chapter title: "A methodology for evaluating security in commercial RFID systems", in Radio Frequency Identification, InTech, ISBN 978-953-51-4884-5.

2015

José M. Camas, Antonio Morales, Luis Castedo, Paula Fraga, Colin Brown, Matthias Tschauner and Mehmet Hayri Kucuktabak, "LTE vs. WiMAX for Military Applications", Final Report of Task Group ET-IST-068, IST (Information Systems Technology) panel of NATO STO (Science and Technology Organization), December 2015.

A. Dapena, M. Dettlaff, M. Lemanska, M. J. Souto-Salorio, Influence of a Vertex Removing on the Connected Domination Number- Application to Ad-hoc Wireless Networks, Centrum Zastosowan Matematyki (Poland), ISBN 978-83-942947-7-9, November 2015.

2013

J. C. Brégains, P. M. Castro, "Electrónica Básica. Problemas Resueltos", Editorial Starbook, Abril 2013, [ISBN 978-84-15457-60-2](#)

2012

J. C. Brégains, P. M. Castro, "Electricidad Básica. Problemas Resueltos", Editorial Starbook, Junio 2012, [ISBN 978-84-15457-25-1](#)

A. Dapena, "Fundamentos de los Algoritmos Adaptativos de Separación de Señales", Editorial Académica Española, 2012, [ISBN: 978-3-8465-6792-0](#)

2011

[[url](#)] Tiago M. Fernández-Caramés, Miguel González-López, Carlos J. Escudero and Luis Castedo. Chapter title: "Rapid Prototyping for Evaluating Vehicular Communications", in Advanced Applications of Rapid Prototyping Technology in Modern Engineering. Edited by Muhammad Enamul Hoque. September 2011, IN-TECH. ISBN: 978-953-307-698-0.

[[url](#)] Sebastian Caban, José A. García-Naya, Christian Mehlführer, Luis Castedo, and Markus Rupp. Chapter title: "Measuring the Closed-Loop Throughput of 2x2 HSDPA over TX Power and TX Antenna Spacing", in Mobile Lightweight Wireless Systems. Second International ICST Conference MOBILIGHT 2010. Barcelona, Spain, May 2010. Revised Selected Papers. Edited by Periklis Chatzimisios, Christos Verikoukis, Ignacio Santamaría, Massimiliano Laddomada, and Oliver Hoffman. Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Telecommunications Engineering, Springer, pp. 388-399, November 2011. ISBN: [978-3-642-16643-3](#)

S. Caban, C. Mehlführer, M. Rupp, and M. Wrulich, Evaluation of HSDPA and LTE: From

Testbed Measurements to System Level Performance, 1st ed. Wiley, Nov. 2011, Chapter title: HSDPA Antenna Selection Techniques, contributed by José A. García-Naya, pp. 139-158. ISBN: 978-0-470-71192-7. DOI: [10.1002/9781119954705](https://doi.org/10.1002/9781119954705) .

[[url](#)] Francisco J. Vázquez-Araújo, José A. García-Naya, Miguel González-López, Luis Castedo, Javier Garcia-Frias. Chapter title: "Experimental Evaluation of MIMO Coded Modulation Systems: are Space-Time Block Codes Really Necessary?", in MIMO Systems, Theory and Applications. Edited by Hossein Khaleghi Bizaki. April 2011, IN-TECH. ISBN: 978-9-533-07245-6.

2010

[[url](#)] José A. García-Naya, M. González-López, L. Castedo. Chapter title: "A Distributed Multilayer Software Architecture for MIMO Testbeds", in Radio Communications. Edited by Alessandro Bazzi, April 2010, IN-TECH. ISBN: 978-9-533-07091-9.
